

TREE MANAGEMENT:

Storm Damage Webinar Series

March 30-April 8

A TRAINING SERIES BY THE STATE AND PRIVATE FORESTRY UNIT AT THE INTERNATIONAL INSTITUTE OF TROPICAL FORESTRY

The State and Private Forestry Unit at the International Institute of Tropical Forestry will be offering six (6) three-hours webinars on tree management focused on affected trees after a storm in Puerto Rico and U. S. Virgin Islands. This series is designed to educate the public and promote urban forests best management practices.

The webinars, presented by ISA Certified Arborists Artem Treyger, PhD, CF, and Miguel Berrios, will be offered starting March 30 to April 8 with two sessions each topic: first session in Spanish at 9:00am AST, and a second session in English at 1:00pm AST.

For more information please contact Aramis Garay at aramis.garaycruz@usda.gov

March

30 Urban Forestry and Storm Mitigation in PR and USVI

Spanish: <https://bit.ly/3efBrNo> English: <https://bit.ly/2Ou1BkB>
